SITE IS PURCHASED FOR Y. M. C. A. HOME

Old Petersburg High School Property Is Bid In for \$14,500.

RELIGIOUS GENSUS TO-DAY

Will Be Taken of City's White Population—Tobacco Sales for Year.

Times-Dispatch Bureau, 5 Bollingbrook Street, (Telephone 1485).

Petersburg, Va., September 28.

As authorized by a decree of the Hustings Court, the school board this afternoon sold at public auction the property on the west side of Union Street, opposite the post-office, for many years occupied by the Petersburg High School. The property fronts ninety-nine feet on Union Street, has a depth of 240 feet and is most desirably located. The sale attracted a large gathering of citizens. The first bid was \$10,000, and the last was \$14,500, made by Dr. J. Gordon Rennie, to whom the property was knocked down.

Dr. Rennie bid for the Young Men's Christian Association to whom the property goes, and on which it is proposed to erect and equip an association home at a cost of \$75,000 to \$100,000. The site is an ideal one for the home, and the one site in the city deemed desirable for that purpose. A meeting of the Executive Committee of the Association will be held on Tuesday morning next to consider plans for the future, among them a whirlwind canvass for raising funds. The association has already the nucleus of a fine library. It has some \$12,000 as the nucleus of the needed fund, and it owns a site on Washington Street which can be sold for more than was paid for it. It has moreover a pledged membership of over 600, conditioned on the building of a home, which will

How Can I Work Through the Long Hot Summer?

Thousands are saying this. If you have to toil and sweeter away in the hot city remember that

THE TOXINS OF FATIGUE ARE IN THE BLOOD.

If you can't take a vacation, take

MILAM FOR GOOD BLOOD

It is the next best thing to fresh air and rest for the hot, tired worker. It will give your body, nerves and brain strength to stand the heat. It will remove the fiery acids from your blood.

Milam is better than a trip to the springs. Geo. B. Crater, Greensboro.

Milam is a splendid body-builder, and has relieved me of acid in my system. Mrs. S. E. Keck, Danville, Va.

This is the first spring and summer I have enjoyed in years, thanks to Milam. Miss Winifred Posten, Roanoke, Va.

MILAM BENEFITS OVER 98 PER CENT. OF THOSE WHO TAKE IT. (ACTUAL RECORDS.)

GIRL IS A SWINDLER

FRANCES HOLLENDER.

New York, September 28.—Posing as the daughter of Governor Foss, of Massachusetts, as the wife of various wealthy men, and acting other bold roles, a girl in her early twenties swindled Boston and New York firms of several thousand dollars worth of finery, according to a confession the police declare the young woman made.

She first said she was Frances Hollender, child of wealthy parents and a pupil in a Baltimore convent. Her "baby stare," bespeaking this role, but according to the alleged confession she was better acquainted with the reform school at Lancaster, Mass., than with the Baltimore convent, and had a string of half a dozen aliases. Detectives found fifty expensive gowns at a well known hotel, where the girl had been staying. Upon this discovery she is alleged to have made her confession.

'PROTEST' STRIKE HAS BEEN CALLED

Mill Operatives Will Quit Work and Remain Idle for Twenty-Four Hours.

[Special to The Times-Dispatch.]

Lawrence, Mass., September 28.—A strike of all members of the Industrial Workers of the World, employed in the local textile mills, will be called for Monday morning to last twenty-four hours. This action was voted by a mass meeting of about 2,500 operatives, mostly young Italians, who gathered on a vacant lot on the corner of Chestnut and Short Streets this afternoon, and it is for the purpose of demonstrating that the workers here affiliated with the Industrial Workers of the World are strongly opposed to the general council.

At the headquarters of the Industrial Workers of the World to-night it was stated that the general council had not taken any action in regard to calling a forty-eight hour strike. The council did not have the authority to order such a strike, the question being one that must be decided by the local branch in each city and town.

William Haywood is on his way here, the local headquarters receiving a dispatch from somewhere along the line between Chicago and Boston, saying he would arrive in time for the parade scheduled for to-morrow.

The central committee of the Industrial Workers of the World to-night issued an open letter addressed to the mill owners. In it the mill owners are notified that the present strike is a protest against the trial of Ettor and Giovannitti, and because of the recent dynamite plot exposure.

Promises of support in a country-wide strike, if one is called, were contained in many telegrams received by William Yates, of the Industrial Workers.

William H. Trautman, who was prominent in the local strike last winter, sent a message from Pittsburgh, reading: "Thousands of miners and street workers will be inspired for a general strike for the liberty of Ettor and Giovannitti."

The labor men could not obtain permission from the city authorities to use the Common for to-day's mass meeting, they said, nor could they get any other place to meet than "the dump" here.

Out of the 11,000 or more strikers who quit work Friday it was estimated about 1,500 tried to go back to work to-day. The factories closed at noon for the regular Saturday holiday.

Ettor and Giovannitti were rushed out of bed to-day before dawn and secretly taken from Lawrence to the Salem jail. This was done to avoid possible trouble. It was feared an effort might be made to rescue the prisoners if the strikers knew the time of their removal.

ROD WALL STREET LAWYER.

Amityville, N. Y., September 28.—Two masked burglars entered the country home of Edward Floyd Jones, a Wall Street lawyer, early this morning, forced their way into the bedroom and while one covered Mr. and Mrs. Jones with a revolver, the other feloniously rifled the house. None of the servants was aroused, and before the alarm could be given the burglars had made good their escape.

They took a quantity of jewelry and silver—so much, in fact, that an inventory will be necessary before an estimate of the value can be made.

HADLEY DELIVERS HIS ULTIMATUM

Will Not Support Taft Unless His Requests Are Accorded To.

St. Louis, Mo., September 28.—Governor Herbert S. Hadley, after an all-day wrangle with the Republican State Committee, issued an ultimatum to-night that the only condition upon which he would support President Taft in his fight for re-election was that the President should immediately declare himself for presidential preference primaries and non-monopoly controlled delegations from Southern States to national conventions to prevent in future conventions the charges of fraud such as arose in the recent Republican National Convention at Chicago. The ultimatum of Governor Hadley was delivered to a subcommittee of the State committee which waited upon him with authority to cancel his invitation to speak at the Republican campaign opening here unless he was willing to pledge the

Girlish, Wrinkle-Free Skin Easy to Have

(From Pictorial Magazine.)

Since its remarkable attainment and static properties became known, clever women all over the world have been using the axolite face bath to "tone up" their faces, remove wrinkles and draw flabby cheeks and neck back to normal. After using the solution the face immediately feels much firmer. The skin tightens evenly, gradually all over the face, thus reducing lines and sagging. The formula is: Pyridoxal, one ounce, dissolved in witch hazel, one-half pint.

Another wonderful facial beautifier and rejuvenator that has become quite famous in the United States, and is in Europe, is mercurio wax. Druggists report a great demand. The wax literally absorbs a salter, blotchy or withered complexion, giving the fresh, vigorous, healthy-looking young skin underneath. It is a chance to "breathe" and to show the face in its natural beauty. It is cold cream, washing it off morning and evening, completely renovates a poor complexion in a week or ten days. One ounce usually is sufficient.

Hamilton Watch History

The first Hamilton Timekeeper was begun in the early spring of the year 1852 and completed late in the fall of the same year. The fourth Hamilton Timekeeper to be made was purchased by Mr. Edwin Paul, a conductor on the Pennsylvania railroad, and if you were to ride from Philadelphia to Harrisburg, Pa., to-day on Mr. Paul's train you would be running on the time of that same Hamilton Timekeeper.

The Hamilton Timekeeper was originally a railroad watch made for the use of railroad men.

Now, every business man who appreciates an absolutely accurate timekeeper may have a

HEAVY SENTENCE FOR CONSPIRACY

Seoul, Korea, September 28.—Heavy sentences were imposed to-day on many of the 123 Korean prisoners charged with conspiring against the life of Governor-General Baron Yui Chi He, formerly a cabinet minister, and several others of the more prominent among the accused were sent to prison for ten years, while various terms of punishment were indicated on all the other prisoners except nine, who were released.

Accusation Against Missionaries.

Washington, D. C., September 28.—The introduction to the Korean conspiracy trial of the names of several American missionaries prominent among them Bishop Mortimer C. Harris, of the Methodist Episcopal Church, attracted world-wide attention to the case. The trial began June 28 and consisted of the presentation of evidence by Christian converts, made confessions implicating the missionaries, which they afterward withdrew, as they declared they had made them under torture.

The trial was postponed on several occasions, as counsel for the defense implored the court for partiality and for refusing to permit the examination of important witnesses. Several new judges were appointed in consequence of this action of counsel.

The Japanese government and the Korean officials disavowed at all times the existence of a campaign against the Christian missionaries and declared they had not the faintest suspicion of any conspiracy of force in connection with the plot. They also declared that they had viewed the missionaries' labor in Korea with favor.

HE REDUCED 57 POUNDS

New Method of Flesh Reduction

Proves Astonishingly Successful.

Johnston, Pa., Sept. 28.—Investigation has fully established that Hon. H. T. Stetler, of this city, has reduced his weight fifty-seven pounds in an incredibly short time by wearing a simple, invisible device, weighing less than an ounce. This, when worn as directed, acts as an infallible flesh reducer, dispensing entirely with dieting, medicine or any exercise. Many prominent men and women have adopted this easy means of reducing superfluous flesh, and it is stated the inventor, Prof. A. J. Burns, of No. 17 West Thirty-Eighth Street, New York, is sending these outfits on free trial to all who write him.
